

# V2.0 DECORATIVE VECTOR TEST

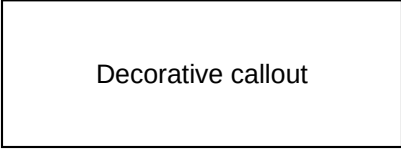

---

This is an ordinary text-focused PDF page.

The page contains a small number of decorative vector elements.

Those decorations should not cause the page to be treated as a chart or diagram.

The purpose of this file is to test conservative vector-content routing.

A rectangular box with a thin black border, containing the text "Decorative callout".

Decorative callout

*No chart, process diagram, or data visualization is present on this page.*
